

Compacted Feed Block Making Device(Portable)

| | |
|-------------|---|
| Size | : Iron box with removable plates (4 -5 mm thickness) 1cubic sq ft |
| Height | : 2 sq ft) |
| Box volume | : 1cubic sq ft |
| Compression | : Hydraulic Jack |
| Efficiency | : Four feed block / h |

Depending upon binding material and pressure created

Economics

Fabrication of Iron box and Hydraulic jack : **Rs 8000/-**

Operational cost : **Nil**

Benefits

- * **Feed management tool for livestock owner**
- * **Maximum utilization of locally available crop residues**
- * **Easy to practice desirable and balanced feeding**
- * **Easy to manage feeding during scarcity period and treatment**
- * **Cost effective and simple operation with minimum labor**
- * **Reduce cost of feeding and space requirement for storage**
- * **Easy to transport** * **Increase feed intake, feed efficiency and production**
- * **Increase feed intake, feed efficiency and production**
